

WRIGHT GROUP ARCHITECTS-PLANNERS P.L.L.C.

At the office, we have celebrated a few birthdays, and we have new projects to brag about. Happy Birthday Jerry, Carol and Dennis in February; Happy Birthday to Adam and Bridie in March; Happy Birthday to Terry, Susan and Marta in April; Happy Birthday to Ron in May and Happy Birthday to Chris in July. We are sharing a few pictures of our birthday celebrations. The cake was delicious, but you will just have to take our word for that!

Community Support – We are committed to community involvement. Our staff members are involved with many different non-profits and educational endeavors. Terry Wright, Managing Principal for Wright Group is attending training for the Carrollton Police Department's Citizen Police Academy, Class 57. The Academy takes place over a 14-week training period and assists our law enforcement with many different areas. Graduates of the program are usually classified as Volunteers in Police Service or Citizens on Patrol. The participants receive the required training in order to perform jobs within the police department and/or support the Patrol Division officers in the field as COP units. Some of the opportunities available as a result of this important training include:

- Street patrols and vacation home checks
- Motorist assistance
- Traffic control
- Safety patrols at city events and many more

Our team is involved in a lot of community affairs and volunteer opportunities, but we thought this one was really interesting and appropriate.

In addition to birthdays, we've had a few work anniversaries. Adam has been with Wright Group for 15 years; Chris for 22 years; and Terry for 23 years (of course Terry started the firm, so the firm is having its 23rd year anniversary too!) Good times and a great team to work with – very happy to be associated with Wright Group.

WRIGHT GROUP ARCHITECTS-PLANNERS P.L.L.C.

Wright Group continues to work on On-Cue stores and remodels. We are currently working on three remodels for On-Cue in Oklahoma. On-Cue has been a client for 16 years and we have delivered remodels, renovations and new additions in Houston and throughout Oklahoma. We work diligently to maintain solid client relations and this is a prime example of our efforts and results.

Wright Group was recently selected by Dallas ISD in the Architectural Pool for the 2020 \$3 Billion Bond Package. We have already been contacted and have just completed the paperwork to start work on Preston Hollow Elementary School. Coincidentally, my niece and nephew (twins) attended Preston Hollow ES when they were growing up. It's a small world!

Other projects that are starting up include the RES Classical Academy High School in Prosper. Wright Group is finishing the work on the Classical Academy of Prosper, Elementary School for Responsive Education Solutions (RES) and will start on the construction for the High School this summer. Just an FYI, Responsive Education Solutions has been a client of Wright Group for over 11 years. We are very proud of our relationships with our clients and work hard to maintain their trust and secure their continuing business.
